

FOREST RIPPLEFOLD® CHART

All panels will have an even number of carriers, some rounding may be necessary (i.e. a track with a pair of drapes that calls for 10 carriers would round to 12 to have even panels).

SNAP TAPE CALCULATOR

Rod Length x 2.0(100%R) = _____

Rod Length x 2.2(120%R) = _____

÷ 12 for feet = _____

÷ 3 for yards = _____

120% Fullness # 2109-25 (in inches)	100% Fullness # 2100-25 (in inches)	80% Fullness # 2102-25 (in inches)	60% Fullness # 2101-25 (in inches)	No. of Carriers
