

WIRELESS CONNECTOR V. WI-FI DONGLE CHEAT SHEET

PLEASE SEE THE CHART BELOW TO CHOOSE THE BEST DEVICE FOR YOUR REQUIREMENTS

Forest Wireless Connector 52947-25

USE WITH
Drapery hardware motors: Shuttle HD, Eco, L and iOn Roman blind motors: RBS plug-in and BCS Roller shade motors: Atlantis
USE WHEN
1. Apple Homekit is desired for control, or 2. Integration via dry contacts is desired for single channel control, or 3. App control is desired for Shuttle iOn, RBS plug-in, BCS or Atlantis
3RD PARTY / APP CONTROL OPTIONS
Google Home, Amazon Alexa, Apple HomeKit, or any 3rd party system with power control
REQUIREMENTS
An outlet that is turned on/off through an app. App to operate drapery or shades. A smart plug is required and included with the Wireless Connector.
OVERVIEW
Single channel transmitter requires remote for pairing. There is no stop feature. Very limited operation, but controls all Forest motorized products.

Forest Wi-Fi Dongle 52948-25, 59

USE WITH
Drapery motors only: Shuttle HD, Shuttle Eco, or Shuttle L
USE WHEN
App control is desired
3RD PARTY / APP CONTROL OPTIONS
Forest Connect App, plus either Google Home or Amazon Alexa
REQUIREMENTS
2.4 Ghz Wifi connection and the Forest Connect App

OVERVIEW
Nearly unlimited control options. Know where drapery is at all times. Voice control via Amazon or Google. Only works with Shuttle HD, Eco and L
